(a) For each area listed above, identify the emergency response point to which 911 calls will be routed.

**Please see attached List of Emergency Authorities.**

(b) For each area listed above, provide details of the carrier's progress in completing translation and other work necessary to route 911 calls to the identified emergency response point.

**In the counties where 911 service is not yet available, Spectra Communications Group, LLC has been providing abbreviated 911 dialing for some time prior to the Commission's December 2001 Order. Spectra Communications Group, LLC, on its own initiative, worked with local emergency service providers in Missouri to identify the appropriate county emergency contact points for 911 callers where no 911 public safety answering point (PSAP) had been designated. As more specifically directed by the Commission in its December 2001 Order, Spectra Communications Group, LLC is now in the process of working with the state governments in Missouri to ensure that these calls still are being directed to the appropriate contact points. To the extent that the state governments identify contact points for their counties that differ from the current ones, Spectra Communications Group, LLC will work to re-route 911 calls to those new contact points. Spectra Communications Group, LLC will also work with these states as they identify PSAPs for these counties, in accordance with the Commission's December 2001 Order.**

(c) For each area listed above, provide the date or projected date that transition to the 911 abbreviated dialing code will be completed.

**Chariton County, Missouri – Conversion to E911 will be October 2004**

**Lewis County, Missouri – Conversion to E911 will be November 2002 through November 2007**

### **Section 3**
